Our goal is to alleviate the financial burden and time consumption of traveling from the patient's home to the medical treatment facilities in Texas of their choice that are otherwise not available to them locally. We understand the difficulties, expenses and immense time consumption required when traveling, and we strive to make the ground and air transportation as comfortable, worry-free and short as possible.

There is absolutely no cost to the patient.

Location will be at Decatur Airport Located at 351 Airport Road, Decatur, TX 76234. Please call 940-627-1050 for more information.
